

# The SimCast Episode 2: Using the 8/21ema and the RDR with Scott Redler

In Episode 2 of The Simcast, we had the special honor of speaking with Scott Redler, aka Red Dog. Scott is a regular contributor to Fox Business and CNBC as well as the Chief Strategic Officer at [T3Live.com](https://www.t3live.com). As a veteran in the industry, Scott brings a refreshing down-to-earth, simple way of dissecting the markets. Not only is he a master technician, he is a highly disciplined person.

Scott's [followers](#) know him as the man who wakes up at 4am, sharing his thoughts and plans for the trading day by around 6am. He cuts no slack to those who come to trading unprepared.

Like his discipline in trading, his routine in life is equally as regimented. He's a triathlete, an active father, and devoted husband. No matter the action during the trading day, you can find him on a Peloton or in the gym around lunch time. He's really got the holistic, balanced approach to being a professional trader down pat.

## Scott Redler SimCast Topics and Free Materials

In this episode with Scott, we cover two of his more fundamental strategies with how to use the [8 and 21 exponential moving averages](#), as well as the [Red Dog Reversal](#) strategy.

Scott is always putting out great free content and mentions his two popular ebooks on the moving averages and Bitcoin in the podcast. Be sure to click the images below and download these here:
