

TradingSim Has Level 2 Data

TradingSim now has Level 2 Data! This is a huge accomplishment for our company and we know this feature will provide tremendous value to our customers.

Below are a few key points we would like to clarify about the service.

Structure of the Data

We have market depth for up to 10 market makers for each security.

How Much Data

L2 data is available on a go-forward basis starting from mid-June.

Pricing

Annual Subscriptions

\$99 dollars. If you are currently a member, the cost is prorated.

Monthly Subscriptions

\$8.25 per month.
